INSPECTOR GENERAL
78-677

3 April 1978

MEMORANDUM FOR: Deputy Director of Personnel

FROM :   
Deputy Inspector General

SUBJECT : Recommendations on PMCD

STATINTL

1.  of the NFAC Publications and Presentations Group (PPG) phoned to say that a member of the PMCD team currently conducting a survey of PPG's T/O referred to a recommendation by the Inspector General to the effect that Directorates be allocated an average grade that could be administered by the Directorates within allocated manpower ceilings. Doug wanted to know what our recommendation was and at what level it had been acted on.

2. I told Doug that the IG had made such a recommendation in its 1976 survey, and that it had been reviewed unfavorably at the DDCI level. He asked if he could see the report.

3. We do not release inspection reports to persons other than those directly involved, without the agreement of those who were inspected. In this case the sections in the 1976 report were paragraphs 39-50 on pages 20-26, and all of Tab G. As you have a copy of the report you can identify the sections in question. I told Doug that I would have to pass his request to you before we would consider it.

4. It would be appreciated if you would let me know your attitude on this request.
